

Coronavirus Update

Dear friends

The Springfield Project has been working hard to continue to provide services during this difficult time. At the current time, Mini-Springers and Park Road Nurseries are continuing to operate as usual. If there is a blanket closure of schools, then our nurseries will also close. We will notify parents if this happens, but please also follow our Facebook page or look at our website for announcements.

Our BFS Children's Centre services are continuing to operate, but we may need to reduce services shortly. Again, we will notify those attending our groups and put this information on our website and Facebook page.

We are suspending some services as of today in order to protect the vulnerable adults who attend our Community Services. Affected services are Place of Welcome, Creative Wednesdays and Feel Good Fitness.

Where face-to-face services are suspended, our staff will endeavour to maintain contact with services users via telephone, e-mail or social media. We will provide more information about this in due course.

We wish to send our best wishes and support to the community of Springfield in these difficult times.

Sarah Robbins

CEO
